

Country Club Estates

Residential Land Development

The Cottages on Country Club Road is a unique residential development project that will bring back the “spirit of the cottage.” The plan encourages cottage style architecture within a social and walk-able residential community near the Omaha Country Club. The villages in the community will be comprised of multiple mini neighborhoods where the homes are built around a courtyard theme. The current plan includes 68 single family lots with three distinct product types and an average lot price of \$125,500.
